

Golden Gate Highlands National Park Key-stakeholder Workshop

11 to 13 May 2005

Thabo Mofutsanyane District Municipality

- Councillor Robert Crowther informed participants that the GGHNP was demarcated as a District Management Area (DMA) for which the Thabo Mofutsanyane District Municipality was responsible.
- On the District Council the Park DMA was represented by himself – an elected ward councillor on the District Council.
- The District Council Responsibility was also to provide services to the DMA and had already started doing so through the linking of GGHNP to a sustainable water supply and upgrading the sewerage system for future needs. Other matters such as road maintenance needs are also receiving attention.
